The Palace Gardens To Begin Construction Of New Complex

The Palace Gardens announced this week that construction is set to begin on their new expanded complex in Homestead.

With their new location on Campbell Drive, across from Homestead Hospital, the facility will expand to 10 acres, and will be home to 201 private studio residences for 111 assisted living and 90 memory care patients, each with private bathrooms.

The 158,000 square foot building is being constructed by Salazar Architectural Group at a cost of \$25 million, and expected to be completed by winter of 2015.
